## 2. Version 2006-10 ()

### 2.1. 1.4

- [1.4] remove menu blocks/items which will not be displayed in the current view ('area') before the UsecaseMenuTransformer step. this is a performance optimization, it reduces the number of usecase precondition checks in the menu generation. [Diff](http://svn.apache.org/viewcvs.cgi?rev=452340&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=452340&view=rev) Committed by josias.
- [1.4] new profiling module (uses cocoon profiler). adds a menu item to the "file" menu and provides xslts for sourcecode prettyprinting and xml source to xhtml rendering (very naive implementation atm). [Diff](http://svn.apache.org/viewcvs.cgi?rev=453206&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=453206&view=rev) Committed by nettings.
- [1.4] add policy for webDAV [Diff](http://svn.apache.org/viewcvs.cgi?rev=462532&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=462532&view=rev) Committed by chestnut.
- [1.4] usecase handler cleanup. [1] remove all cforms-specific code from usecases.js and UsecaseView.java [2] split usecases.js into maintainable chunks [3] introduce a mechanism to add custom flow code (see javadocs in UsecaseView.java and read usecases.js for details) [4] remove DummyCFormsUsecase.java and cforms-specific usecases-utils.js from global code [5] add CForms.java usecase to cforms module [6] add custom flow to cforms module to restore functionality [7] tweak bxe usecases to not create continuations (this restores their original behaviour which was changed by the previous revision of usecases.js) HEADSUP: cforms saving is currently broken, and there is instrumentation code left in modules/cforms/flow/customFlow.js. [Diff](http://svn.apache.org/viewcvs.cgi?rev=468474&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=468474&view=rev) Committed by nettings.
- [1.4] renamed Label to AbstractLink to make the naming more consistent. now we have 'SiteTreeLink extends AbstractLink implements Link'. [Diff](http://svn.apache.org/viewcvs.cgi?rev=452400&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=452400&view=rev) Committed by josias.
