

The Apache Lenya Community

Table of contents

1	Contribute code.....	2
1.1	Preparing a Patch.....	2
1.2	Apply open patches.....	2

Here you will find information on how to interact with and become a member of the Apache Lenya community.

1. Contribute code

You can contribute code as e.g. an "Enhancement Patch". For this, you file a bug entry in Bugzilla, using the links provided below. The bug entries in Bugzilla should provide a description of what the patch does, and how to apply it. Any further discussion should occur on the Lenya Developer list (see [mailing lists](#) (../community/mailling-lists.html))

1.1. Preparing a Patch

- See the Cocoon documentation [How to Prepare a Patch](http://cocoon.apache.org/2.1/howto/howto-patch.html) (http://cocoon.apache.org/2.1/howto/howto-patch.html) and [How to Contribute a Patch via Bugzilla](http://cocoon.apache.org/2.1/howto/bugzilla.html) (http://cocoon.apache.org/2.1/howto/bugzilla.html) .
- Make sure you follow the [coding guidelines](#) (../docs/misc/coding-guidelines.html) .
- Test your patch by applying it to a fresh checkout of Lenya. In Eclipse for instance, this is done by choosing "apply patch" in the team perspective.
- Follow this link to enter your patch in Bugzilla: [add a new patch](http://nagoya.apache.org/bugzilla/enter_bug.cgi?reporter=&product=Lenya&version=Current+CVS&component=core&re) (http://nagoya.apache.org/bugzilla/enter_bug.cgi?reporter=&product=Lenya&version=Current+CVS&component=core&re

1.2. Apply open patches

If you as committer feel that you have some spare time, here is a list of open issues. Just go ahead fix them ;-).

- [list of all provided enhancement bugs](http://nagoya.apache.org/bugzilla/buglist.cgi?bug_status=NEW&bug_status=ASSIGNED&bug_status=REOPENED&bug) (http://nagoya.apache.org/bugzilla/buglist.cgi?bug_status=NEW&bug_status=ASSIGNED&bug_status=REOPENED&bug
- [list of all provided patches](http://nagoya.apache.org/bugzilla/buglist.cgi?bug_status=NEW&bug_status=ASSIGNED&bug_status=REOPENED&bug) (http://nagoya.apache.org/bugzilla/buglist.cgi?bug_status=NEW&bug_status=ASSIGNED&bug_status=REOPENED&bug
