

Image Upload (Multipart Requests)

0.1 Documentation

by Lenya community

Table of contents

1 web.xml.....	2
----------------	---

1. web.xml

In order to enable multipart requests (e.g. image upload), one needs to enable the upload option within the file
.../webapps/lenya/WEB-INF/web.xml

```
<init-param>  
  <param-name>enable-uploads</param-name>  
  <param-value>true</param-value>  
</init-param>
```

Please restart your servlet engine after editing web.xml.

If one builds Lenya from source then multipart requests can be enabled by editing the file build.properties
(enable.uploads=true).
