5 FileReservedCheckOutException	
6 Exception	
0 Exception.	•••

#### 1. Revision Controller

To check out a file call the method:

org.apache.lenya.cms.rc.RevisionController.reservedCheckOut(String source, String identity)

where the source is the path of the file from the publication and the identity is the identity of the user.

This method is called from the ReservedCheckoutAction.

#### 2. The ReservedCheckoutAction

To invoke a reserved check out from a sitemap pipeline, you use The ReservedCheckoutAction.

```
<map:components>
        <map:actions>
                <map:action name="reserved-checkout"</pre>
src="org.apache.lenya.cms.cocoon.acting.ReservedCheckoutAction"
logger="sitemap.action.reserved-checkout"/>
       </map:actions>
      </map:components>
            <map:act type="reserved-checkout">
              <map:generate src="content/rc/{exception}.xsp" type="serverpages">
                <map:parameter name="user" value="{user}"/>
                <map:parameter name="filename" value="{filename}"/>
                <map:parameter name="date" value="{date}"/>
              </map:generate>
              <map:transform src="xslt/rc/rco-exception.xsl"/>
              <map:serialize/>
            </map:act>
```

#### 3. URL

The call

{document-URL}?lenya.usecase=checkout&lenya usecase.step=checkout

invokes a check-out of the document

#### 4. The ReservedCheckoutTestAction

The ReservedCheckoutTestAction checks out a document only if this isn't already checked out

```
<map:generate type="serverpages" src="../../content/rc/{exception}.xsp">
    <map:parameter name="user" value="{user}"/>
<map:parameter name="filename" value="{filename}"/>
    <map:parameter name="date" value="{date}"/>
  </map:generate>
  <map:transform src="../../xslt/rc/rco-exception.xsl"/>
  <map:serialize/>
</map:act>
```

## 5. FileReservedCheckOutException

When the file cannot be checked out because another user has already checked it out, a fileReservedCheckOutException is thrown:

```
File Reserved Checkout Exception
Could not check out the file
Reason: The resource has already been checked out by another user
User: lenya
Date: Wed Oct 22 12:02:28 CEST 2003
Filename: /content/authoring/index/index_de.xml
```

#### The serverpage

lenya/src/webapp/lenya/content/rc/fileReservedCheckOutException.xsp

generates the xml which will be transformed with

lenya/src/webapp/lenya/xslt/rc/rco-exception.xsl

## 6. Exception

The errors are catched as generic Exception

```
Generic Exception
      Check the log files :-)
      Filename: /content/authoring/malaVida/index_de.xml
The serverpage
```

lenya/src/webapp/lenya/content/rc/exception.xsp

generates the xml which will be transformed with

lenya/src/webapp/lenya/xslt/rc/rco-exception.xsl
