Prerequisites

0.1 Documentation

by Lenya community

The following list describes the setup that is tested and recommended. Please note that you can use other servlet containers as well, but Jetty and Tomcat are the tested ones.

- **Java 2 Platform, Standard Edition** (required: J2SE 1.4.2 or newer)
  http://java.sun.com/j2se/1.4.2/download.html

- **Apache Cocoon** (required: Cocoon 2.1.5)
  Cocoon download page (http://cocoon.apache.org/mirror.cgi)

- **(optional) Apache Tomcat** for JDK 1.4 (recommended: 5.0.28 or newer)
  Tomcat release builds (http://jakarta.apache.org/site/binindex.cgi)
