Updating the Lenya Website

by Andreas Hartmann

1. Updating the Lenya website

- For further information see the Wiki page [CocoonWebsiteUpdate](#)
- Checkout the `cocoon-site` module from `cvs.apache.org`
- [Install Forrest](#)
- `export FORREST_HOME=../../../../../xml-forrest/build/dist/shbat`
- `export PATH=$FORREST_HOME/bin:$PATH`
- `cd $LENYA_HOME`
- `ant export-forrest -Dpublication=docs-new`
- Copy the pages from `$LENYA_HOME/build/lenya/export/docs-new/build/site` to `cocoon-site/site/lenya`
- Create and copy the Javadoc (`ant javadocs`, `ant install`, Copy from `$TOMCAT_HOME/webapps/lenya/lenya/pubs/docs-new/resources/html/apidocs` to `cocoon-site/site/lenya`)
- Add, remove, commit to `cocoon-site`
- Login to `minotaur.apache.org`
- `minotaur@apache.org > umask 0002`
- `minotaur@apache.org > cd /www/cocoon.apache.org/lenya`
- `minotaur@apache.org > cvs update -dP`
