2.1. 1.4

- [1.4] Adding a new configuration system module. This new property system is based on the new forrest property system. It let you define properties e.g. in modules or pubs that can be locally overriden without patching the module/pub. You can add lenya.properties.xml to your module to define the default properties for the module. This overrides the default lenya properties in src/webapp/lenya.properties.xml. However the module config can be overriden by defining local.lenya.properties.xml in src/webapp/. Try the following: See the default property "the lenya community" in the heading of http://localhost:8888/default/authoring/index.html. cd src/webapp/src/webapp/lenya.properties.xml src/webapp/src/webapp/local.lenya.properties.xml change pubs.default.author in the new file, restart/rebuild lenya and request http://localhost:8888/default/authoring/index.html See your new prop and smile. - [1.4] Added uuid-based docs to blog trash area Diff (http://svn.apache.org/viewcvs.cgi?rev=430768&view=rev) Committed by andreas.
- [1.4] Added DocumentFactoryTest Diff (http://svn.apache.org/viewcvs.cgi?rev=430792&view=rev) Committed by andreas.
- [1.4] Added SiteTreeLink class Diff (http://svn.apache.org/viewcvs.cgi?rev=430794&view=rev) Committed by andreas.
- [1.4] This commit uses a generator of a forrest plugin. See http://svn.apache.org/viewvc?view=rev&revision=429872 for more information. Produces properties from an input-module. This is been managed by the heart of the forrest plugin the ModuleGenerator.

The generator is contacting the input module and gets an iterator of all attributes names. This iterator will be then used to receive the values of the key. Till now we only use a Object to String cast but an input module does not have to return a simple String but can return any object. This may cause ClassCastExceptions for the values. Further some attributes need to be received with additional parameter (like the page-envelope). The genarator returns then Null. See http://localhost:8888/modules/properties/input-module.properties.properties.xml http://localhost:8888/modules/properties/input-module.page-envelope.properties.xml The match is <map:match pattern="input-module.*.properties.xml"> Diff (http://svn.apache.org/viewcvs.cgi?rev=431181&view=rev) Committed by thorsten.

2.2. Documentation

- [Documentation] Adding a SVN-HEAD-REV file that contains the starting revision number of the head log [Diff](http://svn.apache.org/viewcvs.cgi?rev=427769&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=427769&view=rev) Committed by thorsten.

- [Documentation] Adding forrest.properties.xml config file to the docu. This file lets you change some values of plugins. [Diff](http://svn.apache.org/viewcvs.cgi?rev=428151&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=428151&view=rev) Committed by thorsten.
- [Documentation] Adding .htaccess file to our document source [Diff](http://svn.apache.org/viewcvs.cgi?rev=431397&view=rev) (http://svn.apache.org/viewcvs.cgi?rev=431397&view=rev) Committed by thorsten.
- [Documentation] Added tutorial how to work with documents [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432516&view=rev) Committed by andreas.
- [Documentation] Adding 07 to the changes log and updating tlp-HEAD to exclude 07 [Diff] (http://svn.apache.org/viewcvs.cgi?rev=427765&view=rev) Committed by thorsten.
- [Documentation] Added docs about LenyaMetaDataGenerator [Diff] (http://svn.apache.org/viewcvs.cgi?rev=429720&view=rev) Committed by andreas.
- [Documentation] Added docs how to run tests in eclipse [Diff] (http://svn.apache.org/viewcvs.cgi?rev=430007&view=rev) Committed by andreas.
- [Documentation] Added docu about site protocol, updated lenyadoc docu [Diff] (http://svn.apache.org/viewcvs.cgi?rev=430419&view=rev) Committed by andreas.
- [Documentation] Added comment about area versions [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432518&view=rev) Committed by andreas.

2.3. Sandbox

- [Sandbox] Adding initial ac-restricted branch base on lenya-1.4 r432243 [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432497&view=rev) Committed by thorsten.
- [Sandbox] Basic refactored AC prototype. You can now GRANT or DENY credentials on a url basis. This is integrated into the current implementation. We extend the *.acml files with an @method attribute to define whether or not a certain accreditable can have a role. Till now I did not cleaned/verify that some method can be romved due to this changes. The sitetree usecase AC... needs an update and the whole stuff more testing. Please do in lenya-trunk/src: svn switch https://svn.apache.org/repos/asf/lenya/sandbox/ac-restricted-1.4-src if you are keen to test and play around. Try to change the *acml in the build (e.g. with vim) and see the effect after reload. [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432549&view=rev) Committed by thorsten.
- [Sandbox] Removing custom code that should not be in there. [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432553&view=rev) Committed by thorsten.
- [Sandbox] Adding explanation of the Access Control Specification. Further explaining how it works with an example. Since the order of the policy is important I changed all set and maps to Linked* to keep the entry order. [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432568&view=rev) Committed by thorsten.
- [Sandbox] Removing custom code that should not have been changed in there. [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432585&view=rev) Committed by thorsten.
- [Sandbox] first steps refactoring the jx template. Adding the method and header to the form. Adding URL rights isnow working fine. Other not yet implemented/tested. Needed to comment one line in a method that I have not yet been able to debug. [Diff] (http://svn.apache.org/viewcvs.cgi?rev=432620&view=rev) Committed by thorsten.
- [Sandbox] White noise - formating changes. [Diff] (http://svn.apache.org/viewcvs.cgi?rev=433206&view=rev) Committed by thorsten.
- [Sandbox] Adding possibility to define URL *and* subtree policy. Further ordering the forms regarding url policies and inheritable credentials. Changing java mehtods to use Linked* methods to

keep te order of credentials. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433235&view=rev) Committed by thorsten.
- [Sandbox] White noise - formating changes. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433250&view=rev) Committed by thorsten.
- [Sandbox] Fixing credential bug regarding the test set. We have to check the credential that the identity can obtain. Further returning now credentials sorted in importance order. Still missing ordering of rights (up and down) and fixing the bug with multiple role childs of an accreditable. This bug can be seen in the ac form, where only one credential is returned even if the accreditable has more role definitions. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433294&view=rev) Committed by thorsten.
- [Sandbox] Fixing bug which occured when there have been multiple role childs in a policy under one accreditable. Changed the savePolicy methods to save now only one accreditable and one role. Further enhanced the caption of the ac form. Only one feature is missing (moving the credentials up and down) but I do not consider it as a blocker for a merge with trunk. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433646&view=rev) Committed by thorsten.
- [Sandbox] White noise - formating changes. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433671&view=rev) Committed by thorsten.
- [Sandbox] Removing the check for the live site in the FilePolicyManger since it does not make sense anymore, because we can now restricted any url/suburl. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433674&view=rev) Committed by thorsten.
- [Sandbox] Adding note about to change the order of the credential. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433677&view=rev) Committed by thorsten.
- [Sandbox] using the original url for last policy. Other wise the url got changed and it is not theone we are looking for <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=433706&view=rev) Committed by thorsten.
- [Sandbox] We need to revert the order of the credentials to keep the most important policy on top. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438463&view=rev) Committed by thorsten.
- [Sandbox] Implementing moving up and down the credentials. Step 1 implementing buttons in the view. Still the functionality in the usecase is not yet implemented/triggered. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438472&view=rev) Committed by thorsten.
- [Sandbox] Adding code comment to the reverting loop like suggested by Joern Nettingsmeier. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438893&view=rev) Committed by thorsten.
- [Sandbox] we need to revert the order of the url credentials as well <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438929&view=rev) Committed by thorsten.
- [Sandbox] Implementing moving up and down the credentials. Step 2 implementing back end logic which is moving the credentials. Needed to change the accreditableToCredential key keeping to have unique ids. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438936&view=rev) Committed by thorsten.
- [Sandbox] White noise - formating changes. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438939&view=rev) Committed by thorsten.
- [Sandbox] Finished work in the ac branch. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438941&view=rev) Committed by thorsten.
- [Sandbox] Updating all pubs to meet the new policy system. Granting the access by adding method="grant" to the role. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438944&view=rev) Committed by thorsten.
- [Sandbox] Fixing bug for adding a role to a policy that was introduced in -r438936. Thanks to Josias for testing and spotting the bug. <u>Diff</u> (http://svn.apache.org/viewcvs.cgi?rev=438951&view=rev)

Committed by thorsten.
- [Sandbox] Fixing a bug that occured when adding an user in the admin area. While testing it I found a bug related to remove an user. It seems that there is a loop in the RemovedAccreditablePolicyBuilder which first deletes the accreditable from the user management but later on tries to access it again. Resulting in org.apache.lenya.ac.AccessControlException: Unknown accreditable [user] with ID [x3x]. Not sure why that is happening, need to investigate why and fix the bug before the merge. Diff (http://svn.apache.org/viewcvs.cgi?rev=438989&view=rev) Committed by thorsten.

2.4. Site
- [Site] Automatic publish from forrestbot Diff (http://svn.apache.org/viewcvs.cgi?rev=427933&view=rev) Committed by thorsten.
