Apache Lenya 1.4 Documentation

Warning:

Apache Lenya 1.4 is still under heavy development and should not be used for production yet.

This is the documentation for the 1.4.x releases. The documentation is not as fleshed out as 1.2 yet, so we suggest you also check there for more information while we build up this documentation.

Help wanted!

Since 1.4 is new and provide many enhancements and new features, please help to document them with us. Send documentation patches and use the wiki. TIA :)

More documentation (work in progress) can be found at the [Apache Lenya Wiki](http://wiki.apache.org/lenya/) (http://wiki.apache.org/lenya/) .
